AGCO is very pleased to once again be partnered with Cordex, an ISO 9001:2015 certified global company that supplies products in 55 countries worldwide. Established in 1969, Cordex's commitment to service, quality and price competitiveness is unsurpassed in the industry.

Cordex is the only manufacturer in the world that produces all four of the major baling products used for crop packaging: synthetic and natural fiber twines, silage film and net wrap. They are a family owned, quality focused company that re-invests in continual improvement and new product development. With 10 distributions centers throughout the US and Canada, Cordex maintains deep inventories for prompt delivery throughout the year.

# NET WRAP

## PROFESSIONAL™

- Minimum length guaranteed
- ISO 9001 Certified
- Red end warning stripe
- UV stabilized

## ADVANCED™

- Weft lines are reinforced in an "X" pattern instead of the traditional "Z"
- Reinforced net wrap that gives extra strength in the middle of the bale
- Perfect choice for **tough to bale crops** (i.e. corn stalks)
- Increased water-shedding capabilities
- Red end of roll warning stripe on last 250 feet of the roll

## ADVANCED MAX™

- **15% greater strength** is ideal for baling heavier, denser, and larger hay bales
- Maximum spreadability with enhanced side-to-side coverage
- High visibility striping pattern
- Available in extended lengths = more time baling

## PRO TIPS

### Net wrap provides many benefits over conventional twine.

- Produces 32% more bales per hour
- Provides better protection from the weather
- Saves on fuel and labor costs
- Significantly greater productivity, especially with larger acreages and custom balers
